

# Thinking of Doing a Research Degree in 2008? Think Swinburne

Did you know that in our Centenary Year, Swinburne University of Technology is offering over 120 research scholarships?

Swinburne is one of the ten universities in Australia whose research is cited at above the world average. (*Reference Thomson ISI*)

*THE FOLLOWING SCHOLARSHIP OPPORTUNITIES ARE AVAILABLE FOR 2008:*

## **Chancellor's Centenary Research Scholarships**

Each scholarship offers a non-taxable stipend of \$25k, establishment grant and overseas placement. The Chancellor's Research Scholarship is open to outstanding applicants (either Australian citizens or international students) to study towards a PhD. (Total value: over \$53k p.a.).

## **Australian Postgraduate Awards**

Offers a non-taxable indexed stipend of around \$20,000 p. a. and a tuition fee scholarship (valued at around \$40k p.a.) for up to three years for doctoral studies and two years for Masters by research. Relocation assistance and thesis preparation assistance are provided. Open to Australian citizens and permanent residents.

## **Swinburne University Centenary Postgraduate Research Awards**

### **Vice Chancellor's Centenary Research Scholarships**

Offers a non-taxable indexed stipend of around \$20,000 p. a. and a tuition fee scholarship (valued at around \$40k p.a.) for up to three years for doctoral studies and two years for Masters by research. Relocation assistance and thesis preparation assistance are provided. Open to both local and international students.

## **Centenary Tuition Fee Scholarships**

Offers a tuition fee exemption (valued at \$20k p.a.) for up to three years for doctoral studies and two years for Masters by research. Open to both local and international students.

## **Endeavour International Postgraduate Research Scholarship**

Open to International applicants only. The scholarships are provided to cover annual tuition fees and health care cover. Doctoral degree program scholarship: normally 3 years. Masters by Research: 2 years.

## **Research Areas:**

The scholarships provide opportunities to pursue research within any field of study covered by the University, but particularly our research centres and institutes. Details of our centres and institutes may be found at <http://www.swinburne.edu.au/researchcentres>

So if you are highly qualified and thinking about a research degree, we invite you to apply for a scholarship at Swinburne University of Technology. Scholarship information and application forms are available from our web site at: <http://www.swin.edu.au/research/schols.htm>
